1088 Budapest, Múzeum körút 4/C, Basement floor 61/A. office
Phone: 372-2500/6800
E-mail: operator@elte.hu
Web: iig.elte.hu

Downloading and using the VPN client for Windows operating systems

1. Download the file required for the installation from the <https://vpn.elte.hu/ms> website. You can log in here using your ELTE email address and its corresponding password.

The screenshot shows the ELTE VPN sign-in interface. At the top is the ELTE logo and name. Below it is the heading 'Sign in'. There is a text input field labeled 'e-mail cím / email address'. Below the field is a link that says 'Can't access your account?'. At the bottom of the sign-in section are two buttons: 'Back' and 'Next'. Below this section is a grey box containing Hungarian text: 'Amennyiben kérdése van vagy hibát tapasztal, a 6800-ás központi hibabejelentőn és az operator@elte.hu címen munkatársaink állnak rendelkezésre'. At the very bottom is a section titled 'Sign-in options' with a key icon.

2. After the multi-factor authentication, download the installer by clicking on "Download for Windows".

ELTE
EÖTVÖS LORÁND
UNIVERSITY

Address: 1117 Budapest, Pázmány Péter sétány 1/A, 6. floor 6.127 office
1088 Budapest, Múzeum körút 4/C, Basement floor 61/A. office
Phone: 372-2500/6800
E-mail: operator@elte.hu
Web: iig.elte.hu

3. Run the downloaded file. In the pop-up window, click the "Next" button first.

4. After that, accept the terms of use and select "Next" again.

E-mail: operator@elte.hu
Web: iig.elte.hu

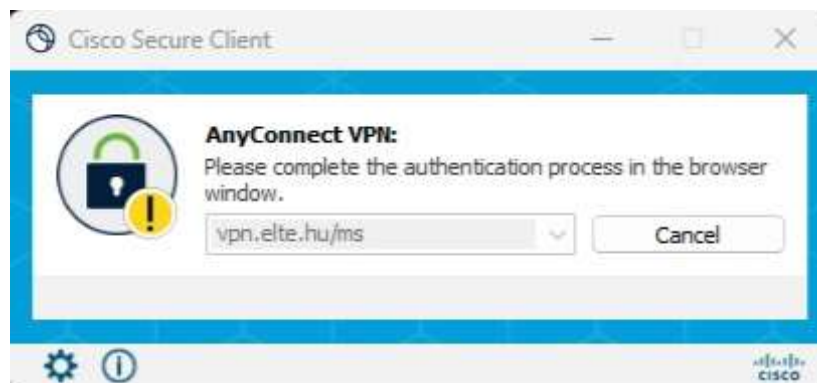

5. Finally, click the "Install" button to start the installation.

6. After installation, run Cisco Secure Client, which you can find in the Start menu.

7. In the required field, you need to specify where you want to connect. This will be **vpn.elte.hu/ms**. Enter this in the empty field, then click the "Connect" button.

Note: For the next login, you will only need to select the "ELTE" connection.
